

SCHEDULE B: ENGINEERING TIME

1. Engineering Time Service Description

Vysiion's Engineering Time service provides the Customer with engineering resource for the number of hours / Man Days specified on the Order Form (the "Contracted Engineering Time") to carry out agreed engineering tasks. The Contracted Engineering Time is a cumulative amount of time allocated to the Customer. In the event that additional engineering time is required in order to complete required tasks, the Customer shall be required to contract for additional engineering time. For the avoidance of doubt, Vysiion engineering resources are sold on an allocated time basis; not on a fixed scope of work basis.
