## 3. Contact Centre as a Service (CCaaS) Service Level Agreement

#### **Target Availability**

The CCaaS Service is deemed unavailable if there is a total loss of a Core Service such that all relevant users do not have use of the Core Service which is not caused by one or more Excused Reasons as set out in Section 8.2 of the Main Body of this Service Document as added to below. Core Service means any aspect of the CCaaS Service other than:

Automated Agent / Chatbot	
SMS Service	
All Social Media Channels

The Target Availability Service Level for the CCaaS Core Service is as follows:

	Target Availability
CCaaS Service	99.99%

Availability is calculated for any measurement period (being a calendar quarter i.e., January to March, April to June etc) as the percentage of the period which the service is Available (i.e., not unavailable as set out above).

#### **Service Credits**

In the event that the Service Level for the CCaaS Core Service is not met, other than for Excused Reasons (as set out in Section 8.2 of the Main Body of this Service Document as added to below) Service Credits as provided for in the table below, shall apply. No Service credits are payable in respect of the other service levels set out above.

Availability	Service Credit

Lower than 99.9%	5%
Lower than 99.99%	1%

The Service Credit is a percentage of the quarterly (i.e., aggregate over three months) of the contracted monthly licence charges for the Service (which excludes traffic and other charges which are not monthly recurring).

# **Excused Reasons**

The following shall also be considered an Excused Reason in respect of CCaaS:

• In the event an access method other than an uncontended Vysiion private Ethernet over Fibre connectivity service is used to access the CCaaS Platform (e.g., Ethernet over Copper, or Broadband or 3rd party Ethernet over Fibre) the SLA will not apply in the event of a connectivity failure or impairment.
